

Mattress Size and Options

The mattresses from Europe are different in size than the American measurements we are accustomed to in United States. Here is a comparison of Twin, Double and Queen sizes.

	United States	European
Twin	39 x 74"	33 1/2 x 78"
Double	54 x 74"	53" x 78"
Queen	60 x 80"	62 1/2" x 78"

Mattress Thickness

Mattresses from Smart Beds are 6" thick high density foam. They are supported in comfort by a sophisticated flex wood slat system built into the metal bed frame.

American Option: At the request of many customers, we have made the mattress available at double thickness. 12" thick. While I do not consider this necessary, it is an option.

This is available on all models except the revolving bed. It would not allow the balanced rotation of this model.

The depth listed on each catalog page would *increase by 6"* and the operation would become slightly stiffer. Extension of the lowered bed will also increase 6".

12" Thick Mattress Option: \$775.
